LID572 RFID reader

Driver installation manual.

This manual describes how to install the driver for the LID572. The driver will create a comport for the LID572. This is the easiest way to communicate with the LID572.

When the LID572 is plugged in for the first time, a driver has to be installed. The drivers are part of the Soft57x PC program (minimum version 6.20) which can be downloaded at www.dorset.nu . After installation the drivers are located at:
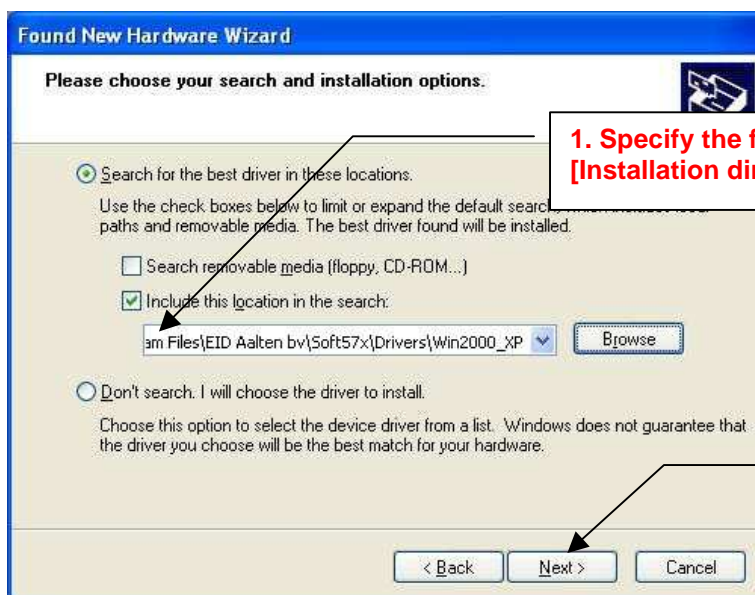

"[Installation dir]\Drivers\WIN2000_XP". In the following steps you will see how to install the driver.

After the LID572 is plugged in, the following window will show:

Found New Hardware Wizard

Welcome to the Found New Hardware Wizard

This wizard helps you install software for:

LID572 portable RFID reader

If your hardware came with an installation CD or floppy disk, insert it now.

What do you want the wizard to do?

○ Install the software automatically (Recommended)
⦿ Install from a list or specific location (Advanced)

Click Next to continue.

< Back | Next > | Cancel

1. Choose "Install from a list or specific location"

2. Click "Next"

Found New Hardware Wizard

Please choose your search and installation options.

⦿ Search for the best driver in these locations.

Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.

☐ Search removable media (floppy, CD-ROM...)

☑ Include this location in the search:

am Files\EID Aalten bv\Soft57x\Drivers\Win2000_XP | Browse

○ Don't search. I will choose the driver to install.

Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.

< Back | Next > | Cancel

**1. Specify the following search path:
[Installation dir]\Drivers\WIN200_XP**

2. Click "Next"

Hardware Installation

⚠ The software you are installing for this hardware:

LID 572 Communications Port

has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.)

Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.

[Continue Anyway] [STOP Installation]

Click "Continue Anyway"

Found New Hardware Wizard

Completing the Found New Hardware Wizard

The wizard has finished installing the software for:

LID 572 Communications Port

Click Finish to close the wizard.

[< Back] [Finish] [Cancel]

Click on "Finish"
